**Abstract.** The abstract should briefly summarize the contents of the paper in 150–250 words.

**Keywords:** First keyword · Second keyword · Another keyword.

## 1 First Section

### 1.1 A Subsection Sample

Please note that the first paragraph of a section or subsection is not indented. The first paragraph that follows a table, figure, equation etc. does not need an indent, either.

Subsequent paragraphs, however, are indented.

**Sample Heading (Third Level)** Only two levels of headings should be numbered. Lower level headings remain unnumbered; they are formatted as run-in headings.

*Sample Heading (Fourth Level)* The contribution should contain no more than four levels of headings. Table 1 gives a summary of all heading levels.

**Table 1.** Table captions should be placed above the tables.

Heading level	Example	Font size and style
Title (centered)	<b>Lecture Notes</b>	14 point, bold
1st-level heading	<b>1 Introduction</b>	12 point, bold
2nd-level heading	<b>2.1 Printing Area</b>	10 point, bold
3rd-level heading	<b>Run-in Heading in Bold.</b> Text follows	10 point, bold
4th-level heading	<i>Lowest Level Heading.</i> Text follows	10 point, italic

Displayed equations are centered and set on a separate line.

$$x + y = z \quad (1)$$

Please try to avoid rasterized images for line-art diagrams and schemas. Whenever possible, use vector graphics instead (see Fig. 1).

**Fig. 1.** A figure caption is always placed below the illustration. Please note that short captions are centered, while long ones are justified by the macro package automatically.

**Theorem 1.** *This is a sample theorem. The run-in heading is set in bold, while the following text appears in italics. Definitions, lemmas, propositions, and corollaries are styled the same way.*

*Proof.* Proofs, examples, and remarks have the initial word in italics, while the following text appears in normal font.

For citations of references, we prefer the use of square brackets and consecutive numbers. Citations using labels or the author/year convention are also acceptable. The following bibliography provides a sample reference list with entries for journal articles [1], an LNCS chapter [2], a book [3], proceedings without editors [4], and a homepage [5]. Multiple citations are grouped [1–3], [1, 3–5].

## 2 Practical notes

Please note that this section is only present in the ITIB template.

### 2.1 Graphics

Include your graphics as eps (encapsulated Postscript, better) or ps (Postscript without bounding box) files, and use latex (no pdf latex) for compilation. You

may use, e.g., Inkscape, Corel Draw tools, or (free) ImageMagick or Gimp to convert bitmaps to eps. Try to avoid converting loosely compressed files (e.g., JPEG). You may also include the eps version alongside the original bitmaps.

For example, a command to use inkscape in semi-batch mode (you may be asked to select export mode) is:

```
inkscape --export-filename name.eps name.png
```

Ensure that your graphics look good on grayscale. You may include color versions for the electronic edition (add COLOR suffix to the filename).

Examples of various formatting options are presented in Figures 2 to 4.

## 2.2 Tables

A few examples of table formatting are shown in Tables 2 to 4.

**Fig. 4.** ITIB logo**Table 2.** Some values.

	Column 1	Column 2	Column 3	Column 4	<b>Average</b>
Phase I	5.99	6.06	9.32	5.88	6.81
Phase II	10.03	8.61	9.64	4.86	8.28
Phase III	8.95	8.91	6.75	3.75	7.09

**Table 3.** Some values.

	Column 1	Column 2	Column 3	Column 4	<b>Average</b>
Phase I	5.99	6.06	9.32	5.88	6.81
Phase II	10.03	8.61	9.64	4.86	8.28
Phase III	8.95	8.91	6.75	3.75	7.09

**Table 4.** Some values.

Header	Columns 1–3			Column 4	Average $\Sigma/n$
	1	2	3		
Phase I		6.06	9.32	5.88	6.81
Phase II	5.99	12.65	9.64	4.86	8.28
Phase III	8.95	8.91	6.75	3.75	7.09

## 2.3 Bibliography

Please note that the best way to submit the bibliography is to use the BibTeX database in a separate file and splncs04 bibliography style, as advised below.

Moreover:

- please provide doi identifier, where possible,
- items that are not available in English should be accordingly marked by placing “(in German)”, “(in Polish)”, etc. by the end of the entry.

## 2.4 Additional notes

- Several publisher’s guidelines for contributors are included in `lncsdoc.pdf` (`additionalInfo` directory) document.
- The website of your institution is optional.
- Full names and surnames of all the authors should be provided.
- Your manuscript should have an even number of pages.
- Do not mix British and American English.

**Acknowledgments.** A bold run-in heading in small font size at the end of the paper is used for general acknowledgments, for example: This study was funded by X (grant number Y).

**Disclosure of Interests.** It is now necessary to declare any competing interests or to specifically state that the authors have no competing interests. Please place the statement with a bold run-in heading in small font size beneath the (optional) acknowledgments<sup>4</sup>, for example: The authors have no competing interests to declare that are relevant to the content of this article. Or: Author A has received research grants from Company W. Author B has received a speaker honorarium from Company X and owns stock in Company Y. Author C is a member of committee Z.
